

K-LOVE is an unvaluable radio station, reaching thousands of people across America with good news and hope. I am a monthly supporter of this station. If this station were to be forced off of the air by the new broadcast service expansion, Low Power FM (LPFM) it would be a great travesty. There would be an increase in depression, suicide, and crime. Many people call in daily to the radio station for help, counseling, and prayer. Please do not let this happen. K-LOVE radio is currently running under FM translator service. K-LOVE is totally listener supported, and therefore has thousands of loyal listeners.

Once again, PLEASE do not push valuable stations like K-LOVE off of the air. Thank you for your consideration and attention to this important matter.
